

Question by trumpetor91: Where can I find the 3D cannonball game that was on shockwave.com?

I'm looking for a game I used to play a few years ago that was on shockwave.com. It was this 3D game where you were on an Island and you took turns with other players on the internet to shoot at each other. If anyone knows the name or where I can find it, that would be great.

Killzone 3 Beta Coming October 25 for Some Plus Subscribers

If you were unable to make it to this year's PAX to try out Killzone 3 's multiplayer, you'll have another opportunity to play it later this month — assuming you're a PlayStation Plus subscriber. That's the primary way that fans will be able to earn access to the beta, but like what was originally announced for the Assassin's Creed: Brotherhood beta, subscribing won't guarantee you a slot. Plus ...

Choose Good Toys for Your Kids Sake

The first time you look through the toy department you may be struck by how much more expensive toys are today than you remembered. Toys don't have to be expensive, though. And with toys, expense has nothing to do with quality. We've all heard the story about the parents who bought their child an expensive toy, and all the child wanted to do was play with the box. A good toy for one child isn't necessarily a good toy for another child. When you purchase a toy, you need to consider your child's age, gender and personal preference. Here are some examples.

As you are getting ready to buy a toy for your little one, keep it in mind that the toys you pick need to be age appropriate for your child. Children go through various stages of development at different ages. Toys need to stimulate the child's mind during play.

Choose interactive and fun toys for infants and toddlers.

Infant Toys and Toddler Toys should stimulate and entertain children from the ages 12 – 24 months or 1 – 2 years. Educational infant toys from famous manufacturers such as Leap Frog, Fisher Price and other infant toy makers are very popular. Infants and Toddlers love toys which make noise, which are colorful and interesting.

Children's Toys And Preschool Toys From The Ages 3 to 4 Years

Preschoolers love toys that stimulate the imagination, offer a challenge and are basically fun to play with! This year, innovative use of technology has ensured hours of fun for this age group. The top toys of 2007 for preschoolers include a wide range of choices like R/C vehicles, toy pianos, games, bikes and much more.

Kids Toys And Kids Games For Kids Aged 5 to 7 years

Kids between the ages of 5 to 7 years have to be kept busy with suitable kid's toys and kid's games. Girls usually love doing some sort of art or craft activity, and boys tend to prefer playing electronic and video games

Choosing [kids toy](#) can be tricky, and you don't want to see useless toys to pile up in corner. So be wise and considerate, your children are going to love them and keep them.
